

ACTUATOR UPGRADE KIT (RB26 GTⅢ Sports Turbine Kit)

This actuator is used in RB26 GTⅢ sports turbine kit with boost over 1.0kgf/cm²(98.1kPa). It is for users who desire high power.

Features

- More stable operation with original large type diaphragm & spring.
- Quick boost response and stabilized feeling at high RPM.

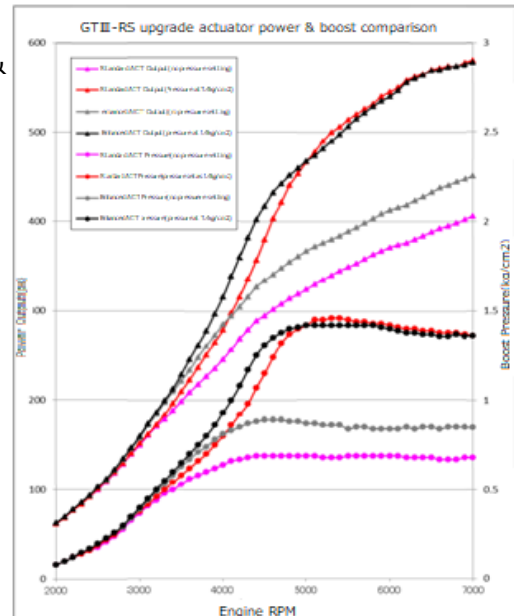

※This actuator is equipped in GTⅢ-RS turbine kit(11004-AN012) from May, 2017

【Test Model】 Skyline GT-R/BNR34

- GTⅢ-RS Sport Turbine Kit
- RB26 2.8L KIT STEP2
- V CAM システム STEP2
- Large Capacity Injectors
- Performance Fuel Pump
- R-Type Intercooler
- Super Turbo Muffler
- Metal Catalyzer
- F-CON V Pro Ver3.4
- EVC 6-IR
- Actuator Set Length⇒Tighten standard with 6 rotations and enhanced with 2 rotations

Precautions

- ※modification is required in some vehicles.
- ※The torque and engine output may vary depending on the measuring instrument and/or individual difference of vehicles.

●ACTUATOR UPGRADE

Vehicle	Model	Engine	Model Year	Boost Pressure	Code No.	Price	Remarks
SKYLINE GT-R	BNR34 BCNR33 BNR32	RB26DETT	89/8~02/8	88.3~98.1kPa (0.9~1.0kgf/cm ²)	14030-AN002		For GTⅢ Sports Turbine Kit. Fuel re-setting is required.
