

# Racing Metal Catalyzer

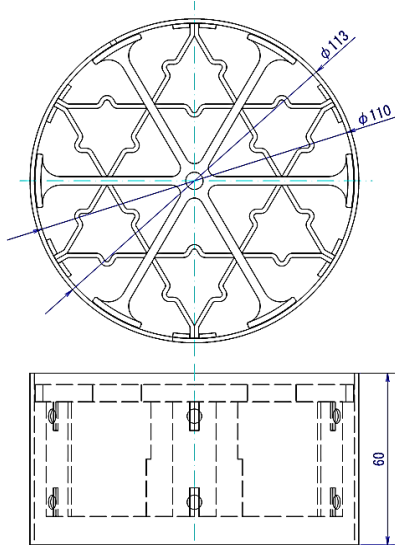

**Code No.33005-RK001**

## Metal Catalyzer for Race Use

Metal Catalyzer for a race requires installation of catalysts and voluntary installation. It is available to use in various scenes with consideration for the environment.

### Large Opening Area and Higher Durability

Higher durability is provided since brazing is not chosen to avoid melting. The opening area is larger to maintain the back pressure at an extremely low level.

Model (Engine)	Universal	
Model Year	-	
JQR Number	N/A	
Main Material	SUS430	
Outer Diameter	113mm	
Length	60mm	
Closed Noise (Noise Level @ Idling)	Stock	-
	HKS	-
Ground Clearance	-	
EX Pipe Ground Clearance (Partial)	-
