

SUPER POWERFLOW FILTER

MINT BLUE

※Only filter element is available for sale.

■Features

Mint Blue element is released in a limited quantity.

This replacement filter element is dry 3-layer type.

This replacement filter element can be used for SPF and SPF Reloaded Intake Kits.

- ◆ Replace the air filter element at regular intervals: (Recommended) Replace every 6,000~10,000km/4,000-6,400miles or every 6~12 months.
- ◆ There are certain conditions where, depending on dirt buildup, the filter may need to be replaced earlier than the above recommended intervals.
